

Directions to Cashew Villa

From The North

George FL Charles Airport: Leave the airport and turn right, follow around the runway to the round about, go right round this and go back along the other side of the runway. The road bears left and makes it's way into Castries. Stay on this road until you come to a major junction by the markets, turn right. Go along this road and over the next major junction keeping the docks to your right. Stay on this road until you get to a set of traffic lights and turn right. keep going until you get to the round about with the Aircraft Tail fin on it, turn left here. This is the Millennium Highway, go to the end and turn right. Stay on this road until you come to Anse la Raye Village, pass through the village and carry on. The next Village is Canaries. Same thing, pass through the village and carry on south. On the final run down into Soufriere use a low gear, this is a very long downhill section and your brakes will get very hot otherwise. Look for the signs to Anse Chastanet and the Hummingbird. Turn right at the signs Use Directions above on the map to finish your journey.

From The South

Hewanorra Airport: Leave the airport and turn right, follow the road into Vieux Fort, turn right at the mini roundabout. Stay on this road through Laborie and Choiseul Villages and on to Soufriere. On arrival in Soufriere turn left then right around the Square, carry on through

Soufriere until you see the signs for Anse Chastanet and the Hummingbird. Keep straight, do not bear right. Use the directions above on the map to finish your journey.

From Soufriere

On Arrival at the northern edge of Soufriere

(See Map above) you will find the Hummingbird hill, very steep, and rough, this is the route into Anse Chastanet Hotel and Jade Mountain. Marked in red on the map.

About Half way, approx. 1 mile along this road take the first right. This turn is at the highest point on the road, go uphill again until the road doglegs right and flattens out, at the end of the flat section take the left turn uphill. Keep going up until you see a pink house, very small on your right, park in the car park and blow your horn, we or Berthia will be down to meet you.

The roads to Soufriere are currently reasonable, but twist & turn a lot. From Soufriere to the apartment is a dirt & concrete road, mostly dirt, narrow and quite rough, whilst not so bad as to require 4 x 4 the extra ground clearance offered by this kind of vehicle is an advantage. In the wet some small, front wheel drive, vehicles, have problems with traction at the top of the Hummingbird Hill.

A Local drivers license is required and can be arranged by the rental company (see links) or picked up at the Soufriere Police Station.
